Summary

I am a Computer Science Engineering student with a strong interest in mobile app development using Flutter and Dart. My projects include a notes app and a login app utilizing shared preferences. I have foundational knowledge in Python and Java and am eager to pursue internships. I seek opportunities to leverage my technical skills in building scalable applications while continuously learning and growing in a professional environment.

Education

Guru Nanak Institute Of Technology, Hyderabad

B.E./B.Tech in Computer Science and Engineering

October 2023 - Present

Percentage : 71.2%

sri chaitanya junior collage

Class 12th

July 2021 - May 2023

Percentage : 95.9%

Telangana state model school

Class 10th

June 2016 - May 2021

Percentage : 96.5%

Skills

Programming Languages : Java, Python, HTML/CSS, JavaScript, MYSQL

Technologies : Mobile App Development, HTML

Tools : Git, Visual Studio Code, Eclipse

Frameworks : Flutter

Projects

Notes App Using Flutter | Flutter, Mobile App Development

[Link to source code](#)

- Developed a Notes Application using Flutter and SQLite (sqflite) with CRUD functionality for creating, editing, deleting, and managing notes using persistent local storage. Designed a responsive and intuitive UI with reusable widgets to deliver a seamless user experience.

Weather API | HTML/CSS, JavaScript, Google API

[Link to source code](#)

- Developed a Weather Application using HTML, CSS, JavaScript, and the OpenWeather API to provide real-time weather information for any city. Implemented city-based search, live temperature, weather conditions, humidity, wind speed, and a fully responsive interface for seamless use across devices.

CricBall Flutter-App | Flutter, Mobile App Development

[Link to source code](#)

- Developed CricBall, a Flutter-based cricket scoring application that enables live score tracking, over and wicket management, player statistics, and match history with persistent local storage. Designed a responsive UI with clean architecture and modular code to ensure a smooth and scalable user experience.

Achievements

- Salesforce Trailhead:** Completed 35+ badges, 2 Superbadges, and accumulated 22,000+ points by gaining practical experience in Salesforce CRM, Apex, Lightning, Flow, and platform customization.
- Secured 397th Rank In The Engineering:** August Series Daily Quiz conducted by Unstop (August 2025).

Hobbies

- playing cricket
- Cooking
